Data Analyst | Tableau | SQL | Power BI | Python | Advance Excel

SUMMARY

Data Analyst (BTech, 2026 Graduate - CGPA 9.51/10) skilled in SQL, Python, Power BI, and Tableau, with experience building end-to-end BI workflows - data cleaning and data validation through DAX modeling, Power Query, and interactive dashboard development - to turn raw data into decision-ready insights. Completed Data Analytics job simulations with Deloitte Australia and Tata Group by Forage, with added exposure to AWS and Python based analytics. Seeking a Data Analyst role where sharp analytical thinking and visualization skills drive measurable impact.

TECHNICAL SKILLS

Languages & Querying: SQL, Python (Pandas, NumPy, Matplotlib, Seaborn, OpenCV, Scikit-learn)

BI & Visualization: Power BI (DAX, Power Query), Tableau, Advanced Excel (Power Query, VBA)

Data Analysis: EDA, Data Cleaning & Validation, KPI Reporting, Dashboard Development, Statistical Analysis

Systems & Cloud: AWS Services (S3, Lambda, Athena), Linux OS, Git/GitHub

PROJECTS

Indian Tech Job Market Intelligence Dashboard 2026 - Power BI

GitHub Link: [Click here](#)

- Built a Power BI dashboard Report analyzing 357 jobs posting across 16+tech roles scraped from Internshala platform
- Built DAX measures for average salary, %remote, %salary disclosed, and top-skills tracking; classified 247 raw job titles into clean role groups using nested text logic.
- Surfaced key market insights: AI/GenAI Specialist and Data Analyst are highest-demand roles; average salary ₹4.93L, with Backend/Frontend Developer highest at ₹10.04L

Weather Analytics Dashboard – Excel, Power Query, Open-Meteo API

GitHub: [Click here](#)

- Integrated the Open-Meteo API into Excel via Power Query to pull live and historical weather data for 8 Indian Cities (Solapur, Sangli, Pune, Mumbai, Jaipur, Bengaluru, Kolkata, Delhi, Chennai, Guwahati)
- Built a rolling 30-day historical view and a 7-day forecast dashboard anchored to TODAY (), with pivot-tables KPI cards enabling automated reporting refresh
- Designed trend visuals for temperature, rainfall and wind speed to support comparative data analysis and report automation across cities

Real-Time AWS Data Pipeline & Analytics Dashboard- AWS (Lambda, S3, Athena), SQL

GitHub: [Click here](#)

- Built a serverless AWS data pipeline (Lambda → S3 →Athena) to ingest, process, and query real-time sensor data streams. Wrote SQL queries in AWS Athena to aggregate time-series data and feed a live Tableau dashboard tracking environmental KPIs and anomaly flags

AI-Powered Smart Healthcare Reminder System- Python, OpenCV, Scikit-learn | Final Year Project

GitHub: [Click Here](#)

- Built an AI healthcare platform for chronic illness patients using real-time face, voice, and hand-gesture recognition to trigger medication alerts. With NoSQL database and Telegram-based caregiver notifications.

INTERNSHIP EXPERIENCE

InternPe – Data Analytics & Machine Learning Intern

Dec 2025 - Mar 2026

- Applied the full data analysis pipeline – EDA, features engineering, model training and evaluation (Accuracy, Precision Recall, F1-Score, R2)-across three projects (Healthcare risk, vehicle price and movie recommendation prediction) using python and Scikit-learn on dataset of up to 45,000+ records

EDUCATION

Bachelors of Technology in Electronics & Telecommunication Engineering - Walchand Institute of Technology, Solapur | CGPA 9.51 /10 | 2026

Higher Secondary Certificate (HSC) - Sangameshwar College | 68.67% | 2022

Secondary School Certificate (SSC) - K.L.E English Medium School, Solapur | 79.8% | 2019

ACHIEVEMENTS & LEADERSHIP

- Team Lead, Smart India Hackathon 2024: Directed a 6-members team to design and deliver a regional language AI chatbot prototype in a national-level 36 hours hackathon deadline.
- Event Organizer, Electrostimulation Technical Competition: Managed a 15-member students committee for a college-level Engineers' Day Competition

CERTIFICATIONS & VIRTUAL EXPERIENCE

Certifications: Microsoft Data Analytics (2025), Infosys Certified Python & C Programmer (2023)

Tech Saksham: Completed Edunet Training Course (2024)

Deloitte Australia Data Analytics Job Simulation on Forage ,2025

Analyzed data and built a Tableau dashboard for a forensic technology case; used Excel to classify data and draw business conclusions

Tata Group Data Analytics Job Simulation on Forage,2025

Used GenAI tools for EDA to build a no-code, ethics-compliant delinquency-risk framework
